**N. Wendell Todd, MD**

Objectives:

- Understand the rationale for newborn auditory physiologic screening
- Understand why half of kindergarteners with permanent hearing problems, in fact passed the newborn screening
- Understand how the results of newborn hearing screening may help, and may mislead, your care of patients

10:00 – 10:05AM Questions & Answers

10:05 – 10:35AM BREAK & EXHIBIT VISITATION

10:35– 11:15AM GUEST SPEAKER PRESENTATION  
*ECRS: Allergic Fungal Sinusitis & Its Cousins*  
**Frederick A. Kuhn, MD**

Objectives:

- Develop a high index of suspicion for chronic eosinophilic inflammation as the etiology in chronic sinusitis patients.
- Develop a strategy for obtaining the critical pieces of information from their pathologist to make the diagnosis of Eosinophilic Chronic RhinoSinusitis.
- Develop a strategy for better clinical management of their ECRS patients and maximize control of mucosal inflammation.

11:15 – 11:20AM Questions & Answers

11:20 – 11:45AM *Central Polypoid Disease as The Nidus of Recurrence in Patients with Samter's Triad*  
**Joshua C. Yelverton, MD**

Objectives:

- Understand the pathophysiology of polyp recurrence in patients with Samter's triad
- Discuss treatment options for patients with recurrent polyposis
- Understand the pathophysiology of aspirin sensitivity

11:45 – 11:50AM Questions & Answers

11:50-12:30 Current Issues in ENT Infections  
**Michael Poole, MD**

12:30PM ADJOURN

1:00PM 3rd Annual “GNS vs. GSO/HNS” Golf Tournament

6:00 – 7:30PM Cocktail Reception in the Exhibit Hall

**Sunday, December 7, 2014**

7:00 – 8:00AM Registration, Continental Breakfast & Exhibit Visitation

8:00AM – 12:00PM **SCIENTIFIC PROGRAM**

8:00 – 8:05AM Welcome & Introductions & Pre-Test  
Stephen Rashleigh, MD      Matthew Kirby, MD  
GSO/HNS President      MAESO/HNS President

8:05– 8:30AM

*Candida Parapsilos: A Novel Pathogen in Pediatric Epiglottitis*

**Nick Panella, MD**

Objectives:

- Participant should be able to consider this novel fungus in the differential for an immunosuppressed child with sub-acute epiglottitis
- Participant should be able to know how to properly work-up and manage epiglottitis in a pediatric patient

8:30 – 8:35AM

Questions & Answers

8:35 – 9:00AM

*Addressing the Unknown Primary: The Robotic Approach to Cancer of the Oropharynx*

**Mihir Patel, MD**

Objectives:

- Understand the advantages and limitations of current diagnostic technology for identifying an unknown primary tumor
- Develop a systematic approach to identifying primary tumor in the setting of a neck mass with an unknown primary tumor

9:00 - 9:05AM

Questions & Answers

9:05 – 9:45AM

GUEST SPEAKER PRESENTATION

*Frontal Sinus Surgery in ECRS Patients*

**Frederick A. Kuhn, MD**

Objectives:

- Apply a progressive set of frontal sinus surgical procedures to ECRS patients, based on their anatomical requirements.
- Develop a strategy to fit the different surgical procedures to the patient's changing clinical requirements.
- Develop a strategy for recognizing and managing ECRS patients, both medically and surgically, based on these two combined lectures.

9:45– 9:50AM

Questions & Answers

9:50-10:20 AM

BREAK & EXHIBIT VISITATION

10:20– 10:45AM

*Be careful what you publish. Stylohyoid complex syndrome is a pain in the neck!*

**John DelGaudio, MD**

Objectives:

- To recognize the symptoms associated with stylohyoid complex syndrome.
- To understand the differential diagnosis of lateral neck pain.
- To understand the work up and treatment options for stylohyoid complex syndrome.

10:45 – 10:50AM

Questions & Answers

10:50-11:50AM

Head & Neck Panel

**Ken Bryd, MD**

**Mihir Patel, MD**

**Guy Petruzelli, MD**

11:50 – 12:00PM

Question & Answers

12:00 PM
